I am a KL University Computer Science undergraduate specializing in Game Development and UX/UI Design. I bring knowledge in Java, Python Django, and AWS Cloud. I aim to advance my expertise while driving innovative, tech-focused, creative solutions.

Work Experience

Cloud Engineering Intern

Mar 2024 - Jun 2024

Intern | Online

I completed an AWS Cloud Practitioner virtual internship, applying certification knowledge through hands-on labs using various AWS services. This experience strengthened my cloud skills, focusing on service deployment, management, and architecture, driving my passion for scalable cloud solutions.

Projects

Hospital Managemnt System Using Django

Sep 2023 - Oct 2023

To implement a powerful billing system and streamline insurance claims processing, reducing billing errors and optimizing revenue collection

Learning Management System

Mar 2024 - May 2024

In the ever-evolving landscape of education, the digital shift has become imperative. Student Learning Management Systems (LMS) have emerged as the cornerstone of this transformation, offering a powerful avenue to enhance the learning experience.

Agriculture E-Commerece

Jun 2024 - Jul 2024

Developed an enterprise-level Agriculture E-Commerce platform using Java. Integrated JPA as middleware for data management, MySQL as the backend database, and JSF for frontend development. Implemented features like product listing, order processing, and user management, ensuring seamless transactions.
